
Let's start adding some videos!

Posted by sfraise - 2009/02/17 12:49

I noticed that not very many people have been adding videos to the site. Is it not working right?

If you haven't added any videos yet give it a try and let me know it works. Just remember to keep adult oriented vids in the adult category.

Also remember that any videos you add will also appear in the video tab of your profile.

:P
