
My reply to both of you

Posted by sfraise - 2009/08/29 01:49

That's fine, she'll be there sooner than later. She has 1 month, maybe 2 left in the house. I sold my truck to give her that time so you both can fuck off. All she had to do was keep her fuckin mouth shut about you and I would have been civil and helped her, but she just had to keep rubbing it in so that's all that she's getting from me from this point on. She's your problem now, good luck. All I got to say is I hope you're prepared to work your ass off while she sits around the house all day playing video games and watching tv because that's all you're gonna get out of her. At least it's all I got out of her for most of 8 years. I also hope you keep her far away from friends and relatives because she tends to have a bad habit of fucking them when you aren't looking.

And no I didn't restore the server to an earlier backup. I actually built this site and know how it works and how to administrate it. I went into the database and simply changed my account back to how it should be.

I'm sure I'll be just as happy as you, the only difference is I'll be happy with this site, an income, and a future and not with someone that sucks the life out of me.

Am I the only one that can understand how spending 2 years building a site to try and build a future for US, only to have her meet a new guy on that very site to run off with causing US to lose our home can piss me off?

I'm done being sad about it, I know I'm better off without her. Why would anyone want to be with a girl that messes around with your cousin when your sick and fucks your friend behind your back while your at work in your own house, and even fucks him when your just out in the garage with company over lol? Why the fuck would I want to be with someone that would then turn around and buy that same mother fucker that's supposed to be my friend a fucking van for his wife to driver their kids around not knowing that it came from the whore he was fucking behind her back? You're gonna complain about me calling you a whore? Well if that isn't a whore then I don't know what is. Why the fuck would anyone want to be with someone that won't work no matter how bad times get, even if she knows it will cause you to lose a business that she's supposed to be a part owner of, yet expect you to somehow keep the bills paid once the business is lost? Why the fuck would anyone want to be with a girl that doesn't appreciate a fucking thing you do for her no matter how hard you work or what you do? Does this really sound like your dream girl? I hope so because brother that's exactly what you're gettin and I really don't see her changing her ways. I'm sure you'll be fine for a few months until the newness wears off, but I wouldn't expect much past that.

This is not what you would call a stand up girl with much respect for anyone or anything including herself. Her feelings are the only things that matter no matter who it will hurt or how much damage it will do. And when we talk about feelings we're talking about she gets the urge to fuck somebody.

Both of you can fuck off and have a great life, just don't do it here anymore.
:)
