I've kicked up a couple of does so far, just got my stand moved yesterday so hopefully this weekend I'll stick one.

Any of you guys hear about the world record monster 38 point that a 15 year old kid took by Albia, Iowa? Do a google search for it, it's a crazy looking deer.

Here's an article about the Albia buck. That's one of those tree bucks (my description for them), those that have the tree sticking out of their head. lol
